What was your overall first impression of the website?

I thought it looked really good.

Did you have any technical difficulties as you navigated through the pages and displayed the projects?

No.

What do you feel are the most effective design elements of this web portfolio?

I would say that the layout and the colors you picked look super great.

What would you suggest be changed with the design or content of this web portfolio?

I think that there could be a little more padding added to certain parts of the website, like the home page maybe a little and the project page needs a little better layout for the large screen. The about me section might need some different kinds of information too.
